Professional Summary

A Motivated UI/UX Designer with a solid understanding of front-end development and design principles. Skilled in Figma, Adobe XD, HTML, and CSS, with a strong interest in creating intuitive and engaging digital experiences.

Education

BACHELOR OF TECHNOLOGY

Jul 2021 – May 2025

KGISL Institute of Technology, Coimbatore. (CGPA: 7.3)

Skills

- **Web Development:** Designing and developing responsive, user-friendly websites.
- **UI & UX Designing:** Creating intuitive, visually appealing, user-centric interfaces.
- **Programming & Databases:** Python, JavaScript (basics), React JS, SQL, HTML & CSS.
- **Design & Office:** Canva, MS Office, Adobe Photoshop, Figma, Web-studio, Illustrator, Blender.
- **Soft Skills:** Critical Thinking, Problem Solving, Time Management and Adaptability.

Experience

Data Science Intern – Exposys Data Labs,

Developed skills in data preprocessing, exploratory data analysis, and machine learning fundamentals using real-world datasets. Strengthened analytical thinking and predictive modeling through hands-on project work.

UI/UX Intern – B-tree Technologies

Gained experience in UI/UX design, wireframing, prototyping, and responsive web design using Figma, HTML, and CSS. Enhanced user-centered design, visual consistency, and attention to detail through iterative design processes.

3D Designer Intern- UXCEL

Developed expertise in 3D modeling, animation, and interactive design using Blender. Improved creative problem-solving, user flow design, and collaboration skills on immersive projects.

Projects

- **Intelligent Trading Analytics & Signal Visualization Platform :** Designed a user-friendly trading dashboard focusing on data visualization and intuitive user flow.
- **Smart Weather Forecasting Application(UX Case Study) :** Created a complete UX case study including user flows, wireframes, and interactive prototypes to improve accessibility and real-time data understanding.
- **Interactive Personal Brand & Portfolio Web Platform(React) :** Built a modern, responsive portfolio platform using React, integrating UI design principles with component-based front-end development.
- **Immersive 3D Product Visualization & Digital Experience:** Created high-quality 3D product models and visual concepts using Blender to enhance digital product presentation and engagement.
- **Smart Railway Navigation & Facility Management Application:** Designed user flows and UI screens for a railway station navigation and facility information platform concept.

Certifications

- Google UX Design Professional Certificate – Coursera
- Figma: UI/UX Design & Prototyping – Coursera
- HTML & CSS for Web Development – Btree Technologies (2024)
- Data Science & Machine Learning Basics – Exposys Data Labs
